

Rajarshi Dasgupta

CFD Lab, Graduate School of System Informatics, Kobe University
✉ rajarshi99@gmail.com ☎ (+81) 080-2307-6165

Research Interests

Graph Neural Networks, Scientific Computing, Physics Informed Neural Networks, Complex Systems

Experience

March 2026 - Ongoing Research Student under the collaboration of Prof. Tsubokura and Prof. Ganesan, through the LOTUS programme, at CFD Lab, Graduate School of System Informatics, Kobe University

December 2024 Organising Committee Member, CASML-2024, Indian Institute of Science (IISc), Bengaluru, India's first scientific machine learning conference, hosting up to 300 participants

October 2024 Presented a poster on 'Challenges with hp-VPINNs' at the Indo-German Workshop on Hardware-aware Scientific Computing (IGHASC)

May 2021 - May 2022 Research on a dynamical system exhibiting self organised criticality in the presence of random links under the guidance of Prof. Sudeshna Sinha at Indian Institute of Science Education and Research (IISER) Mohali

May-July 2018 Computational work on one dimensional maps, learnt and implemented the 'small-world' network, studied spatio-temporal characteristics of coupled lattice maps under the guidance of Prof. Sudeshna

Education

M.Tech. Research (July 2025 - Ongoing) Pursuing my M.Tech.(Research) degree at the department of Computational and Data Sciences, IISc under Prof. Sashi Kumar Ganesan

Integrated BS-MS (August 2017 to May 2022) Physics Major and Data Science Minor at IISER Mohali with a CPI of 8.9/10.

Publications

- Dasgupta, R., Arun, A. & Sinha, S. Emergent activity networks in a model of punctuated equilibrium. Eur. Phys. J. Plus 137, 1366 (2022). <https://doi.org/10.1140/epjp/s13360-022-03581-y>

Personal Information

Skills Python, L^AT_EX, and shell scripting with basic UNIX programs including AWK scripting

Languages Proficiency in English, Hindi and working aptitude in Bengali

Interests Theatre and literature
